

Therapeutic Calcium for Strong Bones

CALCIMAX 600

CALCIUM CARBONATE TABLETS

Calcimax 600 In CKD Care
Strong Bones . Controlled Phosphate
Better Outcomes

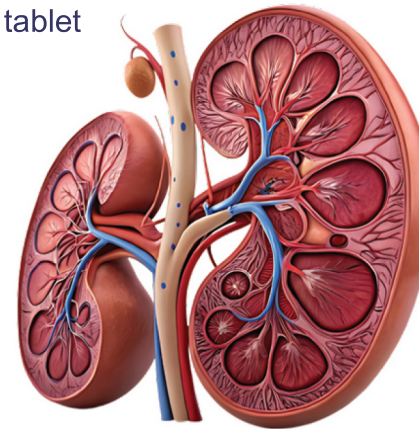

- Diseased kidneys can't excrete phosphate → Hyperphosphatemia
- Low Vitamin D activation → Calcium deficiency
- Both lead to secondary hyperparathyroidism, bone loss, and vascular calcification

How **Calcimax 600** Helps

- ✓ 1600mg calcium carbonate per tablet
- ✓ Binds phosphate in the gut → lowers serum phosphate
- ✓ Corrects calcium deficiency
- ✓ Protects bone health & reduces complications

Your Role as a Healthcare Provider

Every prescription of **Calcimax 600** is more than calcium — it's a step toward better bone strength, safer phosphate control, and improved patient outcomes.
